Carnegie Learning, Inc. Math Awards

Carnegie Learning's Outstanding Student and Distinguished Educator Awards are presented three times a year to students and teachers who excel in math using Carnegie Learning curricula. Each school year, Carnegie Learning proudly honors six individuals who demonstrate a commitment to changing the way America teaches and learns mathematics. Winners receive an Apple iPod Nano, recognition on Carnegie Learning's Web site and in our online newsletter.

Outstanding Student Award

Carnegie Learning students applying for this award should fill out the student portion of the Outstanding Student Award Application form and have their math teacher complete the Teacher Recommendation form.

Distinguished Educator Award

Students, administrators, or teachers who would like to nominate a math teacher who uses Carnegie Learning curricula should fill out the Distinguished Educator Award Nomination form.

Email, fax, or mail completed forms to:
