

## Algebra II Software Table of Contents – 2009-2010

### Unit 1 : Linear Models and Four Quadrant Graphs

1-1 : Graphing with Positive Integer Rates of Change

1-2 : Graphing with Positive Fractional Rates of Change

1-3 : Graphing with Negative Rates of Change

### Unit 2 : Linear Models in General Form

2-1 : Modeling with Linear Inequalities

2-2 : Modeling Linear Equations in General Form

### Unit 3 : Graphs of Linear Equations in Two Variables

3-1 : Graphing Linear Equation Using a Given Method

3-2 : Graphing Linear Equation Using a Chosen Method

### Unit 4 : Absolute Value Equations and Inequalities

4-1 : Solving Simple Absolute Value Equations

4-2 : Solving Absolute Value Equations

4-3 : Solving Simple Absolute Value Inequalities

4-4 : Solving Simple Absolute Value Inequalities with Non-Standard Solutions

4-5 : Solving Absolute Value Inequalities

### Unit 5 : Relations and Functions

5-1 : Recognizing Non-Numeric Functions

5-2 : Recognizing Numeric Functions

5-3 : Recognizing Graphs of Functions

5-4 : Classifying Relations and Functions

### Unit 6 : Linear Function Operations and Composition

6-1 : Evaluating Linear Functions

6-2 : Adding and Subtracting Linear Functions

6-3 : Modeling with Linear Function Composition

6-4 : Composing Linear Functions

### **Unit 7 : Graphs of Functions**

7-1 : Identifying Key Characteristics of Graphs of Functions

### **Unit 8 : Inverses of Functions**

8-1 : Sketching Graphs of Inverses

8-2 : Recognizing Graphs of Inverses

8-3 : Calculating Inverses of Linear Functions

### **Unit 9 : Systems of Linear Equations Modeling B**

9-1 : Modeling Equations with Same Sign Slopes

9-2 : Modeling Equations with Opposite Sign Slopes

### **Unit 10 : Systems of Linear Equations**

10-1 : Solving Simple Systems of Linear Equations

10-2 : Solving Systems of Linear Equations

### **Unit 11 : Graphs of Linear Inequalities in Two Variables**

11-1 : Graphing Linear Inequalities in Two Variables

### **Unit 12 : Systems of Linear Inequalities**

12-1 : Systems of Linear Inequalities

### **Unit 13 : Quadratic Models in Factored Form**

13-1 : Modeling Area as Product of Monomial and Binomial

13-2 : Modeling Area as Product of Two Binomials

13-3 : Maximizing Area

### **Unit 14 : Linear and Quadratic Transformations**

14-1 : Shifting Vertically

14-2 : Reflecting and Dilating using Graphs

14-3 : Shifting Horizontally

14-4 : Transformations using Tables of Values

14-5 : Using Multiple Transformations

### **Unit 15 : Quadratic Expression Factoring**

15-1 : Factoring Trinomials with Positive Constants and Coefficients of One

15-2 : Factoring Trinomials with Negative Constants and Coefficients of One

15-3 : Factoring Trinomials with Positive Constants and Coefficients Other than One

15-4 : Factoring Trinomials with Negative Constants and Coefficients Other than One

15-5 : Factoring using Difference of Squares

15-6 : Factoring Quadratic Expressions

### **Unit 16 : Quadratic Equation Solving using Factoring**

16-1 : Solving Quadratic Equations by Factoring

### **Unit 17 : Forms of Quadratics**

17-1 : Converting Quadratics to General Form

17-2 : Converting Quadratics to Factored Form

17-3 : Converting Quadratics to Vertex Form

### **Unit 18 : Graphs and Equations of Quadratic Functions**

18-1 : Identifying Key Characteristics of a Parabola

18-2 : Transforming Quadratic Functions in Vertex Form

18-3 : Sketching the Graph of a Quadratic Function using Vertex Form

18-4 : Sketching the Graph of a Quadratic Function using Factored Form

18-5 : Writing Quadratic Equations using Vertex

18-6 : Writing Quadratic Equations using X-intercepts

18-7 : Writing Quadratic Equations

### **Unit 19 : Quadratic Equation Solving**

19-1 : Solving Quadratic Equations

### **Unit 20 : Quadratic Models in General Form**

20-1 : Using Regression Models

20-2 : Modeling Projectile Motion from Ground

20-3 : Modeling Projectile Motion from Above Ground

20-4 : Modeling Projectile Motion

### **Unit 21 : Rational and Irrational Numbers**

21-1 : Creating Number Line Models

21-2 : Ordering Rational and Irrational Numbers

### **Unit 22 : Simplification and Operations with Radicals**

22-1 : Simplifying Radicals

22-2 : Adding and Subtracting Radicals

22-3 : Multiplying Radicals

22-4 : Dividing Radicals

### **Unit 23 : Operations with Complex Numbers**

23-1 : Simplifying Radicals with Negative Radicands

23-2 : Simplifying Powers of  $i$

23-3 : Adding and Subtracting Complex Numbers

23-4 : Multiplying Complex Numbers

23-5 : Multiplying Complex Conjugates

23-6 : Dividing Complex Numbers

### **Unit 24 : Graphs of Polynomial Functions**

24-1 : Classifying Polynomial Functions

24-2 : Identifying Key Characteristics of Polynomial Functions

### **Unit 25 : Polynomial Operations**

25-1 : Adding Polynomials

25-2 : Adding Polynomials with Higher Orders

25-3 : Subtracting Polynomials

25-4 : Setting up a Factor Table

25-5 : Multiplying Polynomials using a Factor Table

### **Unit 26 : Cubic Models**

26-1 : Modeling Volume of Cylinders

26-2 : Modeling Volume of Closed Prisms

26-3 : Modeling Volume of Open Prisms

26-4 : Using Given Cubic Models

### **Unit 27 : Quadratic Equation Solving with Complex Roots**

27-1 : Solving Quadratic Equations with Complex Roots

### **Unit 28 : Properties of Exponents**

28-1 : Using the Product Rule

28-2 : Using the Quotient Rule

28-3 : Using the Power to a Power Rule

28-4 : Using the Product to a Power Rule

28-5 : Using the Quotient to a Power Rule

28-6 : Using Properties of Exponents with Whole Number Powers

28-7 : Simplifying Expressions with Negative Exponents

28-8 : Using Properties of Exponents with Integer Powers

### **Unit 29 : Exponential Modeling**

29-1 : Modeling Equations with a Starting Point of One

29-2 : Modeling Equations with a Starting Point other than One

29-3 : Using Regression Models

### **Unit 30 : Linear and Exponential Transformations**

30-1 : Shifting Vertically

30-2 : Reflecting and Dilating using Graphs

30-3 : Shifting Horizontally

30-4 : Transforming using Tables of Values

30-5 : Using Multiple Transformations

### **Unit 31 : Logarithmic and Exponential Equations**

31-1 : Solving Base 10 Equations (No Type In)

31-2 : Solving Base 10 Equations (Type In)

31-3 : Solving Base e Equations (No Type In)

31-4 : Solving Base e Equations (Type In)

31-5 : Solving Any Base Equations (No Type In)

31-6 : Solving Any Base Equations (Type In)

31-7 : Solving Appreciation and Depreciation Equations (No Type In)

31-8 : Solving Appreciation and Depreciation Equations (Type In)

### **Unit 32 : Rational Models as Ratios**

32-1 : Modeling Ratios as Rational Functions

Unit 33 : Rational Expressions

33-1 : Simplifying Rational Expressions

33-2 : Multiplying and Dividing Rational Expressions

33-3 : Adding and Subtracting Rational Expressions

### **Unit 34 : Rational Equations**

34-1 : Solving Rational Equations that Result in Linear Equations

34-2 : Solving Rational Equations that Result in Quadratic Equations

34-3 : Solving Rational Equations with Extraneous Solutions

### **Unit 35 : Rational Models and Independent Variables**

35-1 : Modeling Ratios as Rational Functions

35-2 : Using Rational Models

### **Unit 36 : Work, Mixture, and Distance Problems**

36-1 : Modeling with Rational Functions

36-2 : Modeling and Solving with Rational Functions

### **Unit 37 : One-Step Trigonometric Equations**

37-1 : Solving Tangent Equations (No Type In)

37-2 : Solving Tangent Equations (Type In)

37-3 : Solving Sine and Cosine Equations (No Type In)

37-4 : Solving Sine and Cosine Equations (Type In)

37-5 : Solving Tangent, Sine, and Cosine Equations (No Type In)

37-6 : Solving Tangent, Sine, and Cosine Equations (Type In)

### **Unit 38 : Right Triangles and Trigonometric Functions**

38-1 : Finding Side Lengths using a Given Trigonometric Function

38-2 : Finding Side Lengths using One Trigonometric Function

38-3 : Finding Side Lengths using Multiple Trigonometric Functions

### **Unit 39 : Trigonometric Models using Radians**

39-1 : Using given Trigonometric Function

39-2 : Choosing Trigonometric Functions

39-3 : Using Multiple Trigonometric Functions

### **Unit 40 : Trigonometric Transformations**

40-1 : Transforming Sine and Cosine using Verbal Statements, Graphs, and Equations

40-2 : Transforming Sine and Cosine using Tables of Values

40-3 : Transforming Sine, Cosine, and Tangent using Verbal Statements, Graphs, and Equations

40-4 : Transforming Sine, Cosine, and Tangent using Tables of Values

## **Unit 41 : Multiple-Step Trigonometric Equations**

41-1 : Solving Equations with Law of Sines (No Type In)

41-2 : Solving Equations with Law of Sines (Type In)

41-3 : Solving Two-Step Trigonometric Equations (No Type In)

41-4 : Solving Two-Step Trigonometric Equations (Type In)

## **Unit 42 : Trigonometric Equations and Identities**

42-1 : Using Double Angle, Sum, and Difference Identities (No Type In)

42-2 : Using Double Angle, Sum, and Difference Identities (Type In)

## **Unit 43 : Single Event Probability**

43-1 : Finding Simple Probabilities

43-2 : Finding Disjoint Probabilities

43-3 : Finding Theoretical and Experimental Probabilities

## **Unit 44 : Independent and Dependent Probabilities**

44-1 : Finding the Sample Space for Independent Events

44-2 : Finding the Sample Space for Dependent Events

44-3 : Finding the Sample Space for Independent and Dependent Events

44-4 : Finding Compound Probabilities

## **Unit 45 : Measures of Central Tendency**

45-1 : Finding Mean, Median, Mode, and Range

45-2 : Determining Appropriate Measures

45-3 : Measuring the Effects of Changing Data Sets

45-4 : Finding a Data Value Given a Mean

## **Unit 46 : Box and Whisker Plots**

46-1 : Identifying Key Characteristics from a Data Set

46-2 : Interpreting Box and Whisker Plots

46-3 : Comparing Data Sets

## **Unit 47 : Variance and Standard Deviation**

47-1 : Computing Variance and Standard Deviation

## **Unit 48 : Linear, Quadratic, Exponential, Cubic, and Square Root Transformations**

48-1 : Transforming using Verbal Statements, Graphs, and Equations

48-2 : Transforming using Tables of Values

## **Unit 49 : Function Transformations**

49-1 : Transforming using Verbal Statements, Graphs, and Equations

49-2 : Transforming using Tables of Values
