

## Algebra I Software Table of Contents – 2008-2009

### Unit 1 : Linear Patterns

1-1 : Finding Linear Patterns with Positive Rates of Change

1-2 : Finding Linear Patterns with Positive and Negative Rates of Change

1-3 : Finding Linear Patterns with Negative Starting Points

### Unit 2 : One-Step Unit Conversions

2-1 : Converting Within Systems using One Step

2-2 : Converting Between Systems using One Step

### Unit 3 : Linear Models and First Quadrant Graphs

3-1 : Graphing with Positive Rates of Change

3-2 : Graphing with Positive Rates of Change and Negative Starting Points

3-3 : Graphing with Negative Rates of Change and Positive Starting Points

### Unit 4 : One-Step Linear Equations

4-1 : Simplifying Expressions (No Type In)

4-2 : Simplifying Expressions (Type In)

4-3 : Simplifying Expressions in Equations with Integers (No Type In)

4-4 : Simplifying Expressions in Equations with Integers (Type In)

4-5 : Simplifying Expressions in Equations with Decimals (No Type In)

4-6 : Simplifying Expressions in Equations with Decimals (Type In)

4-7 : Solving with Addition and Subtraction (No Type In)

- 4-8 : Solving with Addition and Subtraction (Type In)
- 4-9 : Solving with Multiplication and Division (No Type In)
- 4-10 : Solving with Multiplication and Division (Type In)
- 4-11 : Solving with Negative One (No Type In)
- 4-12 : Solving with Negative One (Type In)

### **Unit 5 : Linear Models and Independent Variables**

- 5-1 : Finding Independent Variables with Positive Rates of Change
- 5-2 : Finding Independent Variables with Starting Points
- 5-3 : Finding Independent Variables with Negative Rates of Change and Starting Points

### **Unit 6 : Ratios and Proportions**

- 6-1 : Writing Ratios
- 6-2 : Comparing Rates
- 6-3 : Solving Proportions Using Equivalent Fractions
- 6-4 : Solving Proportions Using Means and Extremes

### **Unit 7 : Linear Models and Ratios**

- 7-1 : Modeling Linear Functions with Ratios

### **Unit 8 : Two-Step Linear Equations**

- 8-1 : Solving One-Step Equations (Type In)
- 8-2 : Solving with Multiplication (No Type In)
- 8-3 : Solving with Multiplication (Type In)
- 8-4 : Solving with Division (No Type In)
- 8-5 : Solving with Division (Type In)
- 8-6 : Solving with a Variable in the Denominator (No Type In)
- 8-7 : Solving with a Variable in the Denominator (Type In)

## **Unit 9 : Multiple-Step Unit Conversions**

9-1 : Converting Between Systems using Multiple Given Steps

9-2 : Converting Between Systems using Multiple Steps

## **Unit 10 : Linear Models and Four Quadrant Graphs**

10-1 : Graphing with Positive Integer Rates of Change

10-2 : Graphing with Positive Fractional Rates of Change

10-3 : Graphing with Negative Rates of Change

## **Unit 11 : Linear Equations with Similar Terms**

11-1 : Solving Two-step equations (Type In)

11-2 : Solving by Combining Like Variable Terms and a Constant with Integers (No Type In)

11-3 : Solving by Combining Like Variable Terms and a Constant with Integers (Type In)

11-4 : Solving by Combining Like Variable Terms with Decimals (No Type In)

11-5 : Solving by Combining Like Variable Terms with Decimals (Type In)

11-6 : Solving by Combining Like Variable Terms and a Constant with Decimals (No Type In)

11-7 : Solving by Combining Like Variable Terms and a Constant with Decimals (Type In)

## **Unit 12 : Linear Inequalities**

12-1 : Graphing Inequalities

12-2 : Graphing Compound Inequalities

12-3 : Graphing Compound Inequalities with Non-Standard Solutions

12-4 : Solving Linear Inequalities

12-5 : Solving Compound Linear Inequalities

## **Unit 13 : Linear Equations and the Distributive Property**

13-1 : Solving Linear Equations (Type In)

13-2 : Using Multiplication and Integers (No Type In)

- 13-3 : Using Multiplication and Integers (Type In)
- 13-4 : Using Multiplication and Decimals (No Type In)
- 13-5 : Using Multiplication and Decimals (Type In)
- 13-6 : Using Multiplication and Large Decimals (No Type In)
- 13-7 : Using Multiplication and Large Decimals (Type In)
- 13-8 : Using Division (No Type In)
- 13-9 : Using Division (Type In)
- 13-10 : Using Division with Additional Variable Term (No Type In)
- 13-11 : Using Division with Additional Variable Term (Type In)

#### **Unit 14 : Linear Models and the Distributive Property**

- 14-1 : Modeling with Integer Rates of Change
- 14-2 : Modeling with Fractional Rates of Change
- 14-3 : Modeling using the Distributive Property over Division
- 14-4 : Modeling More Complex Equations

#### **Unit 15 : Rational and Irrational Numbers**

- 15-1 : Creating Number Line Models
- 15-2 : Ordering Rational and Irrational Numbers

#### **Unit 16 : Absolute Value Equations and Inequalities**

- 16-1 : Solving Simple Absolute Value Equations
- 16-2 : Solving Absolute Value Equations
- 16-3 : Solving Simple Absolute Value Inequalities
- 16-4 : Solving Simple Absolute Value Inequalities with Non-Standard Solutions
- 16-5 : Solving Absolute Value Inequalities

## **Unit 17 : Linear Models and Slope-Intercept Graphs A**

17-1 : Graphing given an Integer Slope and Y-intercept

17-2 : Graphing given a Fractional Slope and Y-intercept

## **Unit 18 : Finding Equations of a Line**

18-1 : Modeling Given Slope and a Point

18-2 : Finding Slopes

18-3 : Modeling given Two Points

18-4 : Modeling Parallel and Perpendicular Lines

18-5 : Modeling Given an Initial Point

## **Unit 19 : Linear Models in General Form**

19-1 : Modeling with Linear Inequalities

19-2 : Modeling linear equations in general form

## **Unit 20 : Literal Equations**

20-1 : Solving Literal Equations with Variable Terms on the Same Side (No Type In)

20-2 : Solving Literal Equations with Variable Terms on the Same Side (Type In)

20-3 : Solving Literal Equations with Variable Terms on Opposite Sides (No Type In)

20-4 : Solving Literal Equations with Variable Terms on Opposite Sides (Type In)

20-5 : Solving literal equations (No Type In)

20-6 : Solving literal equations (Type In)

## **Unit 21 : Linear Equations with Variables on Both Sides**

21-1 : Solving Linear Equations (Type In)

21-2 : Solving with Integers (No Type In)

21-3 : Solving with Integers (Type In)

21-4 : Solving with Decimals (No Type In)

21-5 : Solving with Decimals (Type In)

21-6 : Solving with Large Decimals (No Type In)

21-7 : Solving with Large Decimals (Type In)

21-8 : Solving Linear Equations with No Solution and Infinite Solutions (No Type In)

### **Unit 22 : Systems of Linear Equations Modeling**

22-1 : Solving Linear Systems using Integers

22-2 : Solving Linear Systems using Decimals

### **Unit 23 : Systems of Linear Equations**

23-1 : Solving systems of linear equations by graphing

### **Unit 24 : Graphs of Linear Inequalities**

24-1 : Graphing linear inequalities in two variables

### **Unit 25 : Systems of Linear Inequalities**

25-1 : Solving systems of linear inequalities

### **Unit 26 : Quadratic Models and Area**

26-1 : Modeling Quadratic Functions as Area

### **Unit 27 : Squares and Square Roots**

27-1 : Finding Perfect Squares and Square Roots

27-2 : Approximating Square Roots

### **Unit 28 : Quadratic Equation Solving**

28-1 : Solving Quadratic Equations

### **Unit 29 : Quadratic Models and Vertical Motion**

29-1 : Using the Vertical Motion Model

### **Unit 30 : Exponents**

30-1 : Writing Positive Powers of Ten

30-2 : Writing Positive Powers of Bases Other than Ten

30-3 : Writing Negative Powers of Ten

30-4 : Writing Negative Powers of Bases Other than Ten

30-5 : Writing Powers of Bases

### **Unit 31 : Scientific Notation**

31-1 : Using Scientific Notation with Whole Numbers and Positive Exponents

31-2 : Using Scientific Notation with Decimals and Positive Exponents

31-3 : Using Scientific Notation with Whole Numbers and Negative Exponents

31-4 : Using Scientific Notation with Decimals and Negative Exponents

31-5 : Using Scientific Notation

31-6 : Comparing Numbers using Scientific Notation

### **Unit 32 : Product Rule for Exponents**

32-1 : Using the Product Rule with a Coefficient of One

32-2 : Using the Product Rule with Coefficients

32-3 : Using the Product Rule with Multiple Variables

### **Unit 33 : Quotient Rule for Exponents**

33-1 : Using the Quotient Rule with a Coefficient of One

33-2 : Using the Quotient Rule with Coefficients

33-3 : Using the Quotient Rule with Multiple Variables

### **Unit 34 : Polynomial Operations**

34-1 : Adding polynomials

34-2 : Adding polynomials with higher orders

34-3 : Subtracting polynomials

34-4 : Multiplying Polynomials using a Factor Table

### **Unit 35 : Polynomial Multiplication and Factoring**

35-1 : Setting up a Factor Table

35-2 : Multiplying Polynomials using a Factor Table

35-3 : Factoring Trinomials with Positive Constants and Coefficients of One

35-4 : Factoring Trinomials with Negative Constants and Coefficients of One

35-5 : Factoring Trinomials with Positive Constants and Coefficients Other than One

35-6 : Factoring Trinomials with Negative Constants and Coefficients Other than One

35-7 : Factoring using Difference of Squares

35-8 : Factoring Quadratic Expressions

### **Unit 36 : Rational Expressions**

36-1 : Simplifying rational expressions

36-2 : Multiplying and dividing rational expressions

36-3 : Adding and subtracting rational expressions

### **Unit 37 : Probability**

37-1 : Finding Simple Probabilities

37-2 : Finding Disjoint Probabilities

37-3 : Finding Theoretical and Experimental Probabilities

37-4 : Finding the Sample Space for Independent Events

37-5 : Finding the Sample Space for Dependent Events

37-6 : Finding the Sample Space for Independent and Dependent Events

37-7 : Finding Compound Probabilities

### **Unit 38 : Measures of Central Tendency**

38-1 : Finding Mean, Median, Mode, and Range

38-2 : Determining Appropriate Measures

38-3 : Measuring the Effects of Changing Data Sets

38-4 : Finding a Data Value Given a Mean

### **Unit 39 : Pythagorean Theorem**

39-1 : Finding the Length of the Hypotenuse of a Right Triangle

39-2 : Finding the Length of a Leg of a Right Triangle

39-3 : Using the Pythagorean Theorem

### **Unit 40 : Distance and Midpoint**

40-1 : Finding Distances using the Pythagorean Theorem

40-2 : Finding Distances using the Distance Formula

40-3 : Finding Midpoints

40-4 : Finding Distances and Midpoints

### **Unit 41 : Linear and Quadratic Transformations**

41-1 : Shifting vertically

41-2 : Reflecting and dilating using graphs

41-3 : Shifting horizontally

41-4 : Transformations using tables of values

41-5 : Using Multiple Transformations

### **Unit 42 : Exponential Modeling**

42-1 : Modeling equations with starting point of one

42-2 : Modeling equations with starting point other than one

42-3 : Using regression models
