

Bridge to Algebra Software Table of Contents – 2009-2010

Unit 1 : Operations with Whole Numbers

1-1 : Adding and Subtracting Whole Numbers using Place-Value Labels

1-2 : Adding and Subtracting Whole Numbers using Regrouping

1-3 : Multiplying Whole Numbers

1-4 : Dividing Whole Numbers by Whole Numbers

Unit 2 : Picture Algebra

2-1 : Using Picture Algebra with Multiplication

2-2 : Using Picture Algebra with Addition

2-3 : Using Picture Algebra with Subtraction

Unit 3 : Least Common Multiple

3-1 : Finding LCM of Two Numbers

3-2 : Finding LCM in Real-World Problems

Unit 4 : Greatest Common Factor

4-1 : Finding GCF of Two Numbers

4-2 : Finding GCF in Real-World Problems

Unit 5 : Fraction Representations

5-1 : Identifying Fractions from Part-to-Whole Models

5-2 : Creating Part-to-Whole Models from Fractions

5-3 : Identifying Fractions from Group Models

5-4 : Creating Group Models from Fractions

5-5 : Identifying Fractions from Number Line Models

5-6 : Creating Number Line Models from Fractions

Unit 6 : Division of Multiple Wholes as Fractions

6-1 : Dividing Multiple Wholes as Proper Fractions

6-2 : Dividing Multiple Wholes as Improper Fractions

6-3 : Dividing Multiple Wholes as Proper and Improper Fractions

Unit 7 : Division of Groups as Fractions

7-1 : Finding Parts of Groups using Fractions

7-2 : Finding Group Totals using Fractions

7-3 : Finding Parts of Groups or Group Totals using Fractions

Unit 8 : Equivalent Fractions

8-1 : Writing Equivalent Fractions using Part-to-Whole Models

8-2 : Writing Equivalent Fractions using Number Line Models

8-3 : Writing Simplified Fractions using Part-to-Whole Models

8-4 : Writing Simplified Fractions using Number Line Models

8-5 : Comparing Fractions using Part-to-Whole Models

8-6 : Comparing Fractions using Symbols

Unit 9 : Fraction Addition and Subtraction

9-1 : Using Part-to-Whole Models with Like Denominator Fractions

9-2 : Using Number Lines with Like Denominator Fractions

9-3 : Using Part-to-Whole Models with Unlike Denominator Fractions

9-4 : Using Number Lines with Unlike Denominator Fractions

9-5 : Using the Solver with Unlike Denominator Fractions

Unit 10 : Mixed Numbers and Improper Fractions

10-1 : Converting Mixed Numbers to Improper Fractions

10-2 : Converting Improper Fractions to Mixed Numbers

10-3 : Adding and Subtracting Mixed Numbers

Unit 11 : Fraction Multiplication and Division

11-1 : Multiplying Fractions using Area Models

11-2 : Multiplying and Dividing Fractions using the Solver

11-3 : Multiplying and Dividing Mixed Numbers using the Solver

Unit 12 : Decimals and Place Value

12-1 : Writing Money Amounts using Place Value

12-2 : Writing Decimals using Place Value

12-3 : Identifying Place Values and Digits of Decimals

12-4 : Writing Decimals using Expanded Notation

Unit 13 : Fraction and Decimal Conversions

13-1 : Converting Decimals to Fractions

13-2 : Converting Special Fractions to Decimals

13-3 : Converting Fractions to Decimals using Equivalent Fractions

Unit 14 : Decimal Addition and Subtraction

14-1 : Adding and Subtracting Decimals using Place-Value Labels

14-2 : Adding and Subtracting Decimals using Regrouping

14-3 : Adding Three Decimals

Unit 15 : Decimal Multiplication and Division

15-1 : Multiplying Decimals

15-2 : Dividing Decimals by Whole Numbers

15-3 : Dividing Decimals by Decimals

15-4 : Converting Fractions to Decimals using Division

Unit 16 : Ratios and Proportions

16-1 : Writing Ratios

16-2 : Comparing Rates

16-3 : Solving Proportions Using Equivalent Fractions

16-4 : Solving Proportions Using Means and Extremes

Unit 17 : Fraction, Decimal, and Percent Conversions

17-1 : Converting Common Percents

17-2 : Converting with Percents Less Than 100

17-3 : Converting with Percents Greater Than 100

17-4 : Converting with Percents Less Than 1

17-5 : Converting with Fractional Percents

Unit 18 : Percents and Proportions

18-1 : Using Common Percents

18-2 : Finding the Percent of a Number

18-3 : Finding Percents Given Two Numbers

18-4 : Finding Totals Equal To 100%

18-5 : Using Percents

Unit 19 : Percent Change

19-1 : Finding Percent Change

19-2 : Finding Final Amounts Given Percent Change

19-3 : Finding Percent Change and Final Amounts

19-4 : Using Percents and Percent Change

Unit 20 : Integer Representation, Addition, and Subtraction

20-1 : Identifying Integers from Number Lines

20-2 : Creating Number Lines for Integers

20-3 : Using Number Lines to Add and Subtract Positive Integers

20-4 : Using Number Lines to Add and Subtract Negative Integers

20-5 : Using Number Lines to Add and Subtract Integers

20-6 : Using the Solver to Add and Subtract Integers

Unit 21 : Integer Multiplication and Division

21-1 : Multiplying Integers using the Solver

21-2 : Dividing Integers using the Solver

21-3 : Multiplying and Dividing Integers using the Solver

Unit 22 : Order of Operations

22-1 : Simplifying Expressions (No Type In)

22-2 : Simplifying Expressions (Type In)

Unit 23 : Exponents

23-1 : Writing Positive Powers of Ten

23-2 : Writing Positive Powers of Bases Other than Ten

23-3 : Writing Negative Powers of Ten

23-4 : Writing Negative Powers of Bases Other than Ten

23-5 : Writing Powers of Bases

Unit 24 : Scientific Notation

24-1 : Using Scientific Notation with Whole Numbers and Positive Exponents

24-2 : Using Scientific Notation with Decimals and Positive Exponents

24-3 : Using Scientific Notation with Whole Numbers and Negative Exponents

24-4 : Using Scientific Notation with Decimals and Negative Exponents

24-5 : Using Scientific Notation

24-6 : Comparing Numbers using Scientific Notation

Unit 25 : Absolute Value

25-1 : Using Absolute Value as a Distance

25-2 : Simplifying Expressions with Absolute Value

Unit 26 : Picture Algebra and Equations

26-1 : Reviewing Picture Algebra

26-2 : Using Picture Algebra with Multiplication, Total Given

26-3 : Using Picture Algebra with Addition and Subtraction, Total Given

26-4 : Writing Multiplication Equations

26-5 : Writing Addition Equations

26-6 : Writing Subtraction Equations

26-7 : Writing Equations

Unit 27 : Patterns and Expressions

27-1 : Modeling with Multiplication

27-2 : Modeling with Addition and Subtraction

27-3 : Modeling with Operations

Unit 28 : One-Step Unit Conversions

28-1 : Converting Within Systems using One Step

28-2 : Converting Between Systems using One Step

Unit 29 : Patterns and One-Step Equations

29-1 : Modeling with Multiplication

29-2 : Modeling with Addition and Subtraction

29-3 : Modeling with Operations

Unit 30 : One-Step Equations

30-1 : Solving with Addition and Subtraction (No Type In)

30-2 : Solving with Addition and Subtraction (Type In)

30-3 : Solving with Multiplication and Division (No Type In)

30-4 : Solving with Multiplication and Division (Type In)

30-5 : Solving with Negative One (No Type In)

30-6 : Solving with Negative One (Type In)

30-7 : Solving One-Step Equations

Unit 31 : Patterns and Two-Step Equations

31-1 : Modeling Two-Step Equations

Unit 32 : Expression Evaluation

32-1 : Evaluating Expressions with One Operation

32-2 : Evaluating Expressions with Two Operations

Unit 33 : Two-Step Equations

33-1 : Solving with Multiplication (No Type In)

33-2 : Solving with Multiplication (Type In)

33-3 : Solving with Division (No Type In)

33-4 : Solving with Division (Type In)

33-5 : Two-Step Equations

Unit 34 : Problem Solving with Two-Step Equations

34-1 : Solving Problems with Two-Step Equations

34-2 : Solving Problems with More Difficult Two-Step Equations

34-3 : Solving Problems with Decimal and Fraction Equations

Unit 35 : First Quadrant Graphs

35-1 : Graphing using Point Plotting

Unit 36 : Graphs of Inequalities

36-1 : Graphing Inequalities

36-2 : Graphing Compound Inequalities

Unit 37 : Angles and Angle Pairs

37-1 : Measuring Angles

37-2 : Classifying Angles

37-3 : Classifying Angle Pairs

37-4 : Finding Measures of Angles Formed with Parallel Lines

37-5 : Measuring Angles in a Triangle

Unit 38 : Triangles, Quadrilaterals, and Polygons

38-1 : Classifying Triangles

38-2 : Classifying Quadrilaterals

38-3 : Classifying Polygons

Unit 39 : Introduction to Similar Triangles

39-1 : Finding Corresponding Parts of Similar Triangles

Unit 40 : Squares and Square Roots

40-1 : Finding Perfect Squares and Square Roots

40-2 : Approximating Square Roots

Unit 41 : Perimeter and Area

41-1 : Finding Perimeter and Area of Squares and Rectangles

41-2 : Finding Perimeter and Area of Parallelograms

41-3 : Finding Perimeter and Area of Triangles

41-4 : Finding Perimeter and Area of Trapezoids

41-5 : Finding Circumference and Area of Circles

41-6 : Finding Area of Composite Figures

Unit 42 : Pythagorean Theorem

42-1 : Finding the Length of the Hypotenuse of a Right Triangle

42-2 : Finding the Length of a Leg of a Right Triangle

42-3 : Using the Pythagorean Theorem

Unit 43 : Distance and Midpoint

43-1 : Finding Distances using the Pythagorean Theorem

43-2 : Finding Distances using the Distance Formula

43-3 : Finding Midpoints

43-4 : Finding Distances and Midpoints

Unit 44 : Single Event Probability

44-1 : Finding Simple Probabilities

44-2 : Finding Disjoint Probabilities

44-3 : Finding Theoretical and Experimental Probabilities

Unit 45 : Independent and Dependent Probabilities

45-1 : Finding the Sample Space for Independent Events

45-2 : Finding the Sample Space for Dependent Events

45-3 : Finding the Sample Space for Independent and Dependent Events

45-4 : Finding Compound Probabilities

Unit 46 : Measures of Central Tendency

46-1 : Finding Mean, Median, Mode, and Range

46-2 : Determining Appropriate Measures

46-3 : Measuring the Effects of Changing Data Sets

46-4 : Finding a Data Value Given a Mean

Unit 47 : Volume and Surface Area

47-1 : Finding Volume of Prisms

47-2 : Finding Surface Area of Prisms

47-3 : Finding Volume of Cylinders

47-4 : Finding Surface Area of Cylinders

47-5 : Finding Volume of Pyramids

47-6 : Finding Volume of Cones

47-7 : Finding Volume of Spheres

47-8 : Finding Surface Area of Spheres

Unit 48 : Linear Functions

48-1 : Graphing using Slope and y-intercept with Integers

48-2 : Graphing using Slope and y-intercept with Decimals

Unit 49 : Rational and Irrational Numbers

49-1 : Creating Number Line Models

49-2 : Ordering Rational and Irrational Numbers

Unit 50 : Operatios with Rational Numbers

50-1 : Performing Operations with Fractions

50-2 : Performing Operatins with Decimals

50-3 : Simplifying Expressions Using the Distributive Property

Unit 51 : Geometric Transformations

51-1 : Performing One Transformation

51-2 : Performing Two Transformations

51-3 : Performing Three Transformations
